
13 Pin round Euro Trailer Adaptors plug to 7 Pin flat socket Compatibility With Australian Caravans And Trailers

TO ENSURE COMPATIBILITY with Australian caravans and trailers, GCT has released its range of 13-pin Euro Trailer Adaptors. The reason for this is because many retailers are no longer retro-fitting their cars with Australian-compatible sockets.

Available in two variants, 13-pin Euro round on car to 7-pin flat plug and 13-pin Euro round on car to 7-pin large round plug, the units are built using ABS material and nickel plated brass terminals for "improved conductivity".

GCT says, "once inserted into the vehicle's socket, a simple twist and lock function secures the connection. For added peace of mind, a flat disc receiver on the adaptor also accepts the vehicle's socket dust cap, further securing the connection and ensuring it won't work itself loose even over rough road conditions". The bit we like, is the addition of a diode that prevents any warning buzzers or alarms from sounding within the tow vehicle.

GCT's 13-pin Euro Trailer Adaptors are suitable for a wide range of European vehicles including but not limited to: Land Rover Discovery, Mercedes ML Series, VW's Golf, Amarok and Caddy, the Audi Q Series and BMW X3, X5 and X6.

Product information	
Model:	CT7038
Type:	Adapter (Australia Style)
Shape:	flat round
Production process:	Injection molding
Features:	Waterproof
Contact material:	Copper
Insulator material:	Engineering plastic
Material:	plastic
Number of cores:	13
Number of stitches:	7
Voltage output:	12V
Main function:	Connecting truck and power supply, suitable for trailer signal display
Applications:	Commercial vehicles / trailers / RVs / trucks / trucks / semi-trailers /Car/ship/caravan/yacht, etc.
