
Hot sale magnetic main battery switch 24v for car CT E0008

Product parameters

Main contact rated current: 100A/300A

Main contact contact voltage drop: 10080mV dielectric performance when passing 100A/300A load: 1000V, power frequency. 1min does not breakdown

Main contact rated voltage: 6~48V DC coil rated voltage (Us); 6~220V short-time overload capacity: 4le, 1min

Ambient temperature: (-25~50) °C Atmospheric pressure: ?2000M

Vibration: 2~10Hz, amplitude: 5mm; 10~50Hz, acceleration 2.5g

Work system: continuous installation: any

Electrical life: 50,000 times Main contact type: A set of normally open contacts

Mechanical life: 300,000 times

Coil parameter table:

Specifications	Coil current (A)	Pull-in voltage ±5%(V)	Release voltage ±5% (v)	Whole temperature range pull-in (v)	Release (V)	Pull-in time	Release time
12v	?0.8	7.5	2.1	?8	?1.2	?30	?30
24v	?0.45	15.2	3.8	?16	?2.4	?30	?30
