

waterproof IP67 pnp types sensor metal inductive proximity switch CT E0028

Model: CT E0028

Product Hits: 30

Product Size: 8mm

Ambient temperature and humidity: -10-55 ° C / 35-85% RH (non-condensing state)

Sensor Type: Inductive

Shell material: Copper nickel plating

Shell shape: threaded cylinder

Installation Dimensions: Ø8mm

Installation Method: Non-flush

Detection distance: 2mm

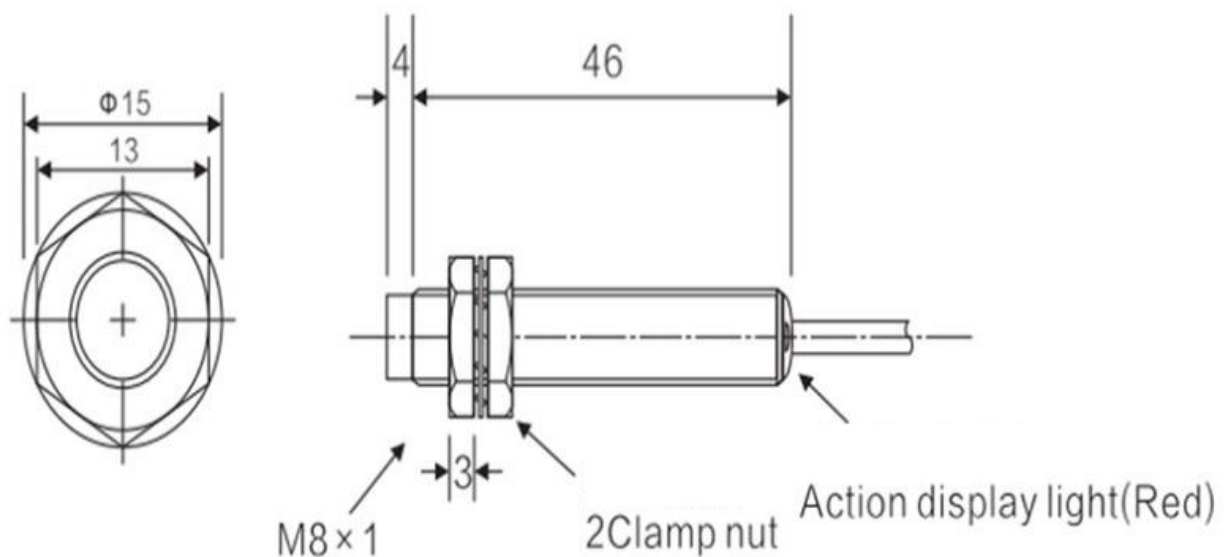

Output form: DC-PNP

Output Status: Normally Open

Working voltage: 10-30VDC

Connection method: 3-core cable
